

SSMRV COLLEGE
TEAM EVEREST [NGO] SCHOLARSHIP STUDENTS
GLOBAL TECH PARK EXPERIENCE

24th May 2023

We out of 26 Scholarship sanctioned students, 21 students are (Varsha.S, Anushree HA, Mahesh.D, Yashwanth V, Varshini R, Dilip J, Karishma LM, Praneeth, RakshithaShakthi, Praneetha, Nishanth, Shwetha, Shabana B, Harshini R, Madhujith SK, Spoorthi, Pallavi LS, Hareshmitha, Chokkesh, Akshay H Jadav, Maneesh KS) visited the Global Tech Park.

WMGM+M4V, Marathahalli Outer ring road, Varthor Hobli, Devarabisanahalli, Block C, Bengaluru, Karnataka 560103.

Team Everest has arranged the transportation facility and team Everest spoc Mrs. Bhavya has come to our college and we all started from our college campus to Global Technology Hub for the visit. We reached there by 2:00 pm and they received us with affection. As it was lunch time Bhavya Madam offered us lunch.

Around 3:00 pm we had an interaction with our sponsor, where they introduced themselves and explained their passion to support us in education.

There was a game where we have to ask questions. It was a really great opportunity for us to ask question which we would like to ask.

They all gave a clean answer in a polite way and few students explained how the scholarship amount actually helped them.

One of among the students has introduced his situation that how this scholarship has helped to him because he finishes his college, after college he take the cricket coaching classes for the kids

and manage his study expenses and he was single parented kid also to help his mother he was taking the cricket coaching classes after the college hours. Like this we all are introduced ourselves. By hearing all this the sponsors satisfied to know that the amount which they sanctioned to. Team Everest was used for the needy students like financially weak or single parent, etc.

It was a great interaction with them. All were friendly and supportive which we felt as a blessing to a part in team Everest family.

They even took all the students for a ride around these IT Hub. Where we really enjoyed a lot in that ride by seeing the environment.

Finally they took us to 3D Model mapping wall where they explained about the work & features of the company.

And we took photos with our sponsor and team Everest Founder Karthee Vidya Sir.

Finally, we all thank our respected principal Dr. S. Anil Kumar sir for tying up with team Everest to give us the scholarship and make our life better and we are thankful for Mrs. Nethravathi B.V Ma'am from Scholarship spoc and Admin office for guiding us.
